Information for Authors

Dear Authors,

No information was found about ethics committee certificate and clinical trials registration.

It was not stated that the study was carried out according to the principle of the Declaration of Helsinki.

I recommend that the "Materials and methods" section be laid out in the following structure:

Study participants. Describe the participants of the study.

Study organization. Indicate methods and the purpose of their use; research procedures and an algorithm for conducting a pedagogical experiment.

Statistical analysis. Describe methods of mathematical statistics and the purpose of their use.

Noted with thanks.

Thank you for the information.

Thank you for your feedback.
