Prof. Dr. Wan Jeffrey Basirun

To: Senny Widyaningsih, Zusfahair Zusfahair

Sun, Nov 17, 2019 at 5:05 PM

Dear Senny Widyaningsih, Mochamad Chasani, Zusfahair Zusfahair, Muhamad Sofie Khaerul Anam, Alny Nur Anisya:

We have reached a decision regarding your submission to MJS, "Additive for Cellulose Acetate Membrane from Coconut Sap in Desalination Application".

After much waiting, we finally received useful evaluation from reviewer(s) that enable us to make a decision on your paper. I attach their comments below. We enclose at the bottom of this letter the major points raised by the reviewers for your information; and suggest you to revise the paper accordingly.

If you agree to carry out the necessary revision, please do so and return the revised manuscript within **21** days.

When uploading your revised paper, please also submit a suitable rebuttal that carefully addresses the issues raised in the comments, point by point. **Highlight the differences of the revised manuscript for the reviewer(s) comment. A new revised version should also be sent together.**

List the comments suggested in the review and revisions came out in the **"Manuscript Correction Summary"** (find the template at the review discussion box). Rebuttals of the review comments can be made on this document.

We may revert to the original reviewers for assessment of the revised paper.

I wished you success and look forward to receive your revised paper.

Thank you for your interest in MJS.

Prof. Dr. Wan Jeffrey Basirun

Dear Prof.Dr.Wan Jeffrey Basirun,

I have opened the online system, but I can't find the review of my article.

Could you inform the review of my article? Or where I can find the review?

Thank you

Senny Widyaningsih, Mochamad Chasani, Zusfahair Zusfahair, Muhamad Sofie Khaerul Anam, Alny Nur Anisya:

We have reached a decision regarding your submission to Malaysian Journal of Science, " Additive for Cellulose Acetate Membrane from Coconut Sap in Desalination Application".

Our decision is to: **ACCEPT FOR PUBLICATION WITH MAJOR REVISIONS REQUIRED**

MJS Editorial Assistant

University of Malaya

mjs_um@um.edu.my

Reviewer A:

This is a paper on an investigation of desalination process using cellulose acetate membrane prepared from fermentation of coconut sap. Firstly microbial cellulose was prepared according to a previously reported fermentation method (Widyaningsih & Purwati, 2013). The cellulose acetate was purified according a reported method (Radiman et al., 2008). The membrane was prepared by phase inversion method (Radiman et al., 2008). During the casting of membrane, an additive was introduced into the cellulose acetate solution, and this additive has produced significant effected on the performance of desalination. PEG additive was used at 14% level, while formamide was used at 28% level. With reference to the control, membrane treated with PEG showed lower tensile strength, while that treated with formamide showed higher tensile strength. Membrane treated with formamide could reduce salinity more than membrane treated with PEG.

Overall the paper is of interest to the readers as it has described a

[MJS] New notification from Malaysian Journal of Science 2

Yahoo/Sent

MJS Editorial Assistant

To: Senny Widyaningsih

Mon, Jun 22, 2020 at 3:23 PM

You have a new notification from Malaysian Journal of Science:

You have been added to a discussion titled "[MJS] A message regarding Publication in MJS" regarding the submission " ADDITIVE FOR CELLULOSE ACETATE MEMBRANE FROM COCONUT SAP IN DESALINATION APPLICATION".
