Dear Yanuar Haryanto, Gathot Heri Sudibyo and Nanang Gunawan Wariyatno,

Greetings! This is Tammy, the Conference Secretary of ICBMC 2017. On behalf of the organizing committees, I sincerely appreciate your attention. Your paper titled "Experimental study on the properties of artificial lightweight aggregate concrete reinforced with carpet waste fiber" has been sent to be reviewed by technical committee. The paper ID is C0021, please keep it in mind.

The paper will enter the further peer review process performed by technical committee in related fields. If it is accepted, a review form and notification for acceptance will be sent to you by the notification date November 10, 2017.

We will appreciate a lot if you can recommend our conference to your colleagues and other researchers so that more people can join us and share their knowledge.

Please feel free to contact me if any question.

Conference Invitation Letter

Yanuar Haryanto, Gathot Heri Sudibyo and Nanang Gunawan Wariyatno
Jenderal Soedirman University, Indonesia

To Whom It May Concern,

The Conference Technical Program Committee is pleased to inform that the peer-reviewed & refereed conference paper “**Experimental study on the properties of artificial lightweight aggregate concrete reinforced with carpet waste fiber**” authored by Yanuar Haryanto, Gathot Heri Sudibyo and Nanang Gunawan Wariyatno has been accepted for presentation at the conference and publication in IOP Conference Series: Materials Science and Engineering (ISSN: 1757-899X).

Herewith, the Conference Organizing Committee and Technical Program Committee cordially invite **Yanuar Haryanto, Gathot Heri Sudibyo and Nanang Gunawan Wariyatno** to present the paper at ICBMC 2018 in Nha Trang, Vietnam during 23-25 February, 2018.

ICBMC 2018 is sponsored by Hong Kong Chemical, Biology and Environmental Engineering Society. (Keynote Speaker: Prof. Low Sui Pheng, National University of Singapore, Singapore; Prof. Zongjin Li, The Hong Kong University of Science and Technology, Hong Kong; Prof. Jin-Keun Kim, Korea Advanced Institute of Science and Technology, South Korea) The objective of ICBMC is to bring together researchers, scientists, engineers, and scholar students in the related fields to exchange and share their experiences, new ideas, and research results, and discusses the practical challenges encountered and the solutions adopted.

Sincerely Yours,

Tracy Yeung
Managing Director
