Dear Dr. Asnani,

In reference to your article reviewed, please find the reviewer's comments, make sure to do the corrections as suggested by the reviewer and revert back to us at your earliest convenience.

Note: kindly highlight the corrections in yellow colour or show the track changes. So that reviewer can follow the corrections.

Reviewer Comments:

Line number	Reviewer's Comments/Suggestions
77	How were the Streptomyces W-5B and clinical isolate MRSA 2983 identified?
128	Crystal violet concentration should be added
158	Information about Streptomyces W-5B should be in the material methods section not in the results
210	K3N1 (amylum-casein), and K3N2 (amylum-peptone) should be starch, not amyllum
	The results section may be shorter, the comments here can be used in the discussion section.

Kindly acknowledge the email to confirm safe delivery.
