Dear Dr. Bilalodin,

We have now received the Review on your paper, which is being considered by the journal "Nuclear Physics and Atomic Energy". The referee report can be found attached to this message.

The referee has recommended that you make some amendments to your article. Please consider the reviewer's comments and amend your article according to the recommendations. Please send a modified version of your manuscript with highlighted changes and point-by-point replies to the reviewer's comments (as a separate file), preferably, by 11 January 2022. This will much simplify the work of referees in reviewing your modified article.

If you need more time, please let us know.

Please correct the article using its **previous version sent to you**.

We look forward to hearing from you soon.

Sincerely yours,  
Dr. Volodymyr Tretyak  
Executive secretary of the Editorial Board

Dear Dr. Bilalodin,

I am happy to inform you that the Editorial Board (EB) member gave a positive estimation of your work and recommended it for publication. Please wait for the final official acceptance at the meeting of the Editorial Board which is planned in 2-4 weeks (if we all will not be killed by Putin). EB final acceptance, in case of positive conclusion of the EB member (as is your case too), is mostly formal procedure.

Slava Ukraini! Geroyam slava!

Dear Dr. Bilalodin,

We hope you are safe and doing good!

The pdf-file with the proofread version of your article submitted for publication in the journal "Nuclear Physics and Atomic Energy" has now been built and is ready for your approval. Please view the submission before approving it, to be certain that it is free of any errors and, if necessary, make highlighted changes. Corrections should be minimal (punctuation marks, replacement of one or two words in the sentence, minor changes in the equations or figures, etc.), so as not to disrupt the formatting of the article. If the changes are significant, we will be forced to withdraw the article from the publication and send it to re-edition. Please, return the corrected version by e-mail. If there are no comments, let me know.

Thank you,

**Dear Editor**

Thanks to the editor for revising our article. After we look at the corrections that have been made, there are still a few mistakes. Please be kind to revised it. A part that need to be revised include

1. Description of picture 2: Epithermal neutron flux in DLBSA without and with nozzles is replaced by : **The neutron flux spectrum of DLBSA output without and with nozzles. P(417)**
2. The description of the Y axis in the picture 2 epithermal neutron flux is replaced by **Neutron flux. p ( 417)**
3. Description of picture 3: The ratio of epithermal neutron flux to thermal neutron flux in DLBSA without and with nozzles is replaced by : **The comparison of epithermal neutron flux in DLBSA without and with nozzles. P(417)**
4. epithermal neutron is replaced by **neutron. p ( 417)**

After the last correction, I as the author's representative agree to publish.

Best regards
