### Referee's Report

**Paper No.:** PPH-1611015-MS

**Title:** "The noncentral  $F$  distribution".

**Authors:** B. Pratikno, Jajang, A. J. Putri and R. K. Aji

**Recommendation:** Accept ( ☒ ) Revision ( ☐ ) Reject ( ☐ )

The authors study the probability distribution function, cumulative distribution function and graphical analysis of a noncentral  $F$  distribution. In this detailed paper, the authors establish that the curve of the univariate noncentral  $F$  distribution decreases as the noncentral parameter increases. The paper is well written and gives a pleasant reading. Therefore, I recommend it for publication in the Far East Journal of Mathematical Sciences (FJMS).
