Dwi Sunu Widyartini:

We have reached a decision regarding your submission to Biodiversitas Journal of Biological Diversity, "Diversity and patterns of distribution seaweed with medicinal potential in Kebumen Beach, Central Java".

Our decision is: Revisions Required

Reviewer A:

Dear author,

- Abstract should consist of about 200 words
- Introduction should consist of about 600-700 words
- This manuscript has too many national references to be published in Biodiversitas Journal. Reference list should consist of at least 20 citations which 80% of international scientific journals published in the last 10 years (2012-2022), and a maximum of 10% references from national publication

Best regards

Recommendation: Revisions Required

Dwi Sunu Widyartini:

We have reached a decision regarding your submission to Biodiversitas Journal of Biological Diversity, "Diversity and patterns of distribution seaweed with medicinal potential in Kebumen Beach, Central Java".

Our decision is: Revisions Required

Reviewer A:

Comments to authors:

- Please be specific and elaborate how supporting parameters were studied. Detail out the methodology for each parameter.

- Scale for figure 4 is not suitable. Please change to more appropriate ones.
- It will be appropriate if the number of individuals is represented together in the table/figure rather than just stating the percentage in text.
- Please include table for supporting parameters incorporating the type/species of seaweed found with its morphology described.
- Please crosscheck all the symbols used, be consistent.
- L270-L272: Authors need to construct the sentences structure to convey their message.
- It is highly recommended the term "medicinal" to be changed to "bioactive".
- Language: needs major correction on grammar and sentence structure

Recommendation: Revisions Required
