 -- IJPEDS GFA & Template (LaTeX version): <https://iaescore.com/gfa/ijpeds.rar>  
 =====

Dear Dr. Suroso Suroso,

We have reached a decision regarding your submission entitled "Improving Output Current of Inductor-Cell based Five-Level CSI using Hysteresis Current Controller" to International Journal of Power Electronics and Drive Systems (IJPEDS), a SCOPUS indexed Journal, Scimago Journal Ranking (SJR) Q2 on Electrical and Electronics Engineering, CiteScore: 1.49, SJR: 0.304, and SNIP: 1.088.

Our decision is: Revisions Required

The goal of your revised paper is to describe novel technical results. Please prepare your revised paper within 6 weeks. Read the checklist for preparing your revised paper for publication at: <http://www.iaescore.com/journals/index.php/IJPEDS/about/editorialPolicies#custom-4>. Please try to follow the format as closely as possible.

- For ORIGINAL RESEARCH PAPER (should be presented with IMRaD model), there are four (4) types of novel technical results:

- 1) An algorithm;
- 2) A system construct: such as hardware design, software system, protocol, etc.; The main goal of your revised paper is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed;
- 3) A performance evaluation: obtained through analyses, simulation or measurements; or
- 4) A theory: consisting of a collection of theorems.

Your revised paper should focus on:

- 1) Describing the results in sufficient details to establish their validity;
- 2) Identifying the novel aspects of the results, i.e., what new knowledge is reported and what makes it non-obvious; and
- 3) Identifying the significance of the results: what improvements and impact do they suggest.

Number of minimum references for original research paper is 25 references (included minimum 20 recently journal articles within 5 years).

- For REVIEW PAPER, the paper should present a critical and constructive analysis of existing published literature in a field, through summary, classification, analysis and comparison. The function and goal of the review paper is:

- 1) to organize literature;
- 2) to evaluate literature;
- 3) to identify patterns and trends in the literature;
- 4) to synthesize literature; or
- 5) to identify research gaps and recommend new research areas.

The structure of a review paper includes:

- 1) Title – in this case does not indicate that it is a review article.
- 2) Abstract – includes a description of subjects covered.
- 3) Introduction includes a description of context (paragraph 1-3), motivation for review (paragraph 4, sentence 1) and defines the focus (paragraph 4, sentences 2-3)
- 4) Body – structured by headings and subheadings
- 5) Conclusion – states the implications of the findings and identifies possible new research fields

References ("Literature Review") – organised by number in the order they were cited in the text.

Number of minimum references for review paper is 50 references (included minimum 40 recently journal articles).

In preparing your revised paper, you should pay attention to:

1. Please ensure that: All references have been cited in your text. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3,4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5] or [4-8]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list. Examples of in-text citations (refer IEEE style):

- This theory was first put forward in 1970 [9]."
- Sutikno [10] has argued that...
- Several recent studies [7], [9], [11-15] have suggested that....
- ... end of the line for my research [16].

Read and refer our published papers in our journals for improving your paper.

- <http://journal.uad.ac.id/index.php/telkomnika>

- <http://ijpeds.iaescore.com>

- <http://ijece.iaescore.com>

- <http://beei.org>

- <http://ijeecs.iaescore.com>

- <http://ijai.iaescore.com>

(Please use "Search" under "JOURNAL CONTENT" block menu)

2 An Introduction should contain the following three (3) parts:

- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the art of the field the report is about.

- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.

- The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work. Authors should place the paper in proper context by citing relevant papers. URGENT: at least, 10 references (recently journal articles) are used to support this section.

3. Results and discussion section: The presentation of results should be simple and straightforward in style. You should improve your analyzing and also present the comparison between performance of your approach and other researches. Results given in figures should not be repeated in tables. This section report the most important findings, including results of statistical analyses as appropriate. It is very important to prove that your manuscript has a significant value and not trivial.

Please submit your revised paper in MS Word file format (ZIP of your LATEX source files if you presented your paper in LATEX) and submit it through our online system at same ID number (NOT as new submission) or simple, by replying this email (ONLY if you reached problems).

I look forward for hearing from you

Thank you

Best Regards,

Dr. T. Sutikno

Editor

[ijpeds@iaesjournal.com](mailto:ijpeds@iaesjournal.com)

-----  
Update your metadata in our online system when you submit your revised paper through our online system:

- Authors name are presented without salutation
- Authors Name are presented Title Case (ex: Michael Lankan, NOT --> michael lankan,

NOT --> MICHAEL LANKAN). Add all authors of your paper as per your revised paper  
- Title of revised paper (ex: Application of space vector modulation.... , NOT -->  
APPLICATION OF SPACE VECTOR MODULATION ....)  
- Your updated abstract

**IMPORTANT!!:**

=====

- A high quality paper MUST has:

- 1) a clear statement of the problem the paper is addressing;
- 2) the proposed solution(s); and
- 3) results achieved.

- The paper title summarizes the main idea or ideas of your study (title is "summary" and "essence" of your paper). Title should be "encompassing" as well as "descriptive". A good title contains the fewest possible words needed to adequately describe the content and/or purpose of your research paper. Rarely use abbreviations or acronyms unless they are commonly known.

-----  
Reviewer F:

Does the title of the paper accurately reflect the major focus contribution of this paper?:  
Yes

If No, Please suggest change of the title as appropriate:

Is the abstract an appropriate and adequate digest of the work?:  
Yes

Is the paper clear, concise, and well organized?:  
Yes

Rate of the contribution strength to the field is represented in this paper:  
Average

Rate the scientific quality of the paper?:  
Average

As far as your knowledge, have the authors already published a very similar paper?:  
No

If yes, kindly please cite below:

Do authors place the paper in proper context by citing relevant papers?:  
Yes

Is the paper free from obvious errors, misconceptions, or ambiguity?:  
Yes

Is the paper written in correct English?:  
No

If No, please note grammatical errors and suggest corrections:  
There are some grammatical errors in abstract and introduction

Are the references in IJPEDS style?:  
Yes

Are the figures and tables in IJPEDS style, clear, relevant, and are the captions adequate?:  
Yes

Is the length of the paper adequate?:  
Yes

Please mark appropriate scale for the overall grade for this paper? (A score of 7 or above

typically provides ground for IJPEDS acceptance):

6

Reviewer's comments and suggestions to improve the paper. (If it is not possible, kindly please use separate sheets or a copy of the paper for comments and suggestions for revision. Indicate whether revisions are mandatory or suggested. Please use word processing type format if possible, and then upload or submit via email to [Ijpeds@iaesjournal.com](mailto:Ijpeds@iaesjournal.com)):

idea in the paper is good but there are some comments to improve the manuscript given below:

1. grammatical errors and symbols are not defined properly.
2. how you define hysteresis band?
3. what method you used to find gains of PI controller?
4. experimental results should be added to validate your approach effectively.
5. figures can be more visible.

Dear Editor International Journal of Power Electronics and drive System (IJPEDS),

I send the revised version of our paper entitled: "Improving output current of inductor-cell based five-level CSI using hysteresis current controller" as attached. We have revised the paper according to the reviewer's comments. The revised paper has been uploaded through online system of the journal.

Thank you.

Best regards,  
Dr. Suroso

Reply-To: "Dr. T. Sutikno" <ijpeds@iaesjournal.com>

To: "Dr. Suroso Suroso" <suroso.te@unsoed.ac.id>

The following message is being delivered on behalf of International Journal of Power Electronics and Drive Systems (IJPEDS).

---

-- ID# 20891

-- We will usually expect a MINIMUM of 25 REFERENCES primarily to journal papers

-- IJPEDS Guide for Authors & Template: <https://iaescore.com/gfa/ijpeds.docx>

-- Please attach your similarity report checking that the result is below 25%

-- uses software such as iThenticate or Turnitin

-- Paper will be re-schedule/cancel for publication, if the similarity index is more than 25%

=====

Dear Prof/Dr/Mr/Mrs Dr. Suroso Suroso,

It is my great pleasure to inform you that your paper entitled "Improving Output Current of Inductor-Cell based Five-Level CSI using Hysteresis Current Controller" is accepted and will be published on the International Journal of Power Electronics and Drive Systems (IJPEDS), a Scopus/ScimagoJR indexed journal (CiteScore 2018: 1.49, SNIP 2018: 1.088, SJR 2018: 0.304, and ScimagoJR 2018: Q2 on Electrical and Electronic Engineering). Congratulations!

A good research paper has a clear statement of the problem the paper is addressing, the proposed solution(s), and results achieved. It describes clearly what has been done before on the problem, and what is new. We will usually expect a minimum of 25 references primarily to journal papers, depending on the length of the paper. Original/Research paper should be presented with "Introduction - Method - Results - and - Discussion" (IMRaD) model:

1. Introduction

2. The Proposed Method/Algorithm/Procedure specifically designed (optional). Authors may present complex proofs of theorems or non-obvious proofs of correctness of algorithms after the introduction section (obvious theorems & straightforward proofs of existing theorems are NOT needed).

3. Research Method

4. Results and Discussion

5. Conclusion.

Please read the Checklist at

<http://ijpeds.iaescore.com/index.php/IJPEDS/about/editorialPolicies#custom-4>.

The IJPEDS Guide for Authors & Template:

<https://iaescore.com/gfa/ijpeds.docx> (or <https://iaescore.com/gfa/ijpeds.rar> LaTeX version).

In order to cover part of the publication cost, each accepted paper is charged: USD 265. This charge is for the first 8 pages, and if any published manuscript over 8 pages will incur extra charges USD45 per page

The payment should be made by bank transfer (T/T):

=====

Bank Account name (please be exact)/Beneficiary: TOLE SUTIKNO  
Bank Name: Bank Negara Indonesia (BNI)  
Branch Office: UGM Yogya, KCP SARJANA WIYATA  
City: Yogyakarta  
Country: Indonesia  
Bank Account # : 0469076067  
SWIFT Code: BNINIDJAXXX  
or as an alternative, you can pay by using PayPal to email:  
[info@iaesjournal.com](mailto:info@iaesjournal.com)  
=====

Submit your final camera ready paper (in MS Word file format, or LaTeX source files) and your payment receipt within 15 days to  
[ijpeds@iaesjournal.com](mailto:ijpeds@iaesjournal.com).  
Please also attach your similarity report checking that the result is below 25%, uses software such as iThenticate or Turnitin.

We really appreciate your total commitment to supporting this journal.
