27-Jul-2015

Dear Mrs Maryani

Your revised manuscript entitled "Global well-posedness for free boundary
problem of the Oldroyd-B Model fluid flow" has been successfully submitted online and will shortly be given full consideration for publication in Mathematical Methods in the Applied Sciences.

Your manuscript number is MMA-15-7179.R1. Please mention this number in all future correspondence regarding this submission.

For your reference, the manuscript number of the PREVIOUS manuscript version is MMA-15-7179

You can view the status of your manuscript at any time by checking your Author Center after logging into https://mc.manuscriptcentral.com/mma. If you have difficulty using this site, please click the 'Get Help Now' link at the top right corner of the site.

Thank you for submitting your manuscript to Mathematical Methods in the Applied Sciences

Yours sincerely

Mathematical Methods in the Applied Sciences Editorial Office

Dear Mrs. Maryani

Thank you for your manuscript entitled

Global well-posedness for free boundary
problem of the Oldroyd-B Model fluid flow

Your paper is accepted for publication in the MMAS and has been sent to the
publisher

Your paper cannot be published until the publisher has received the appropriate signed license agreement. Within the next few days the corresponding author will receive an email from Wiley's Author Services system which will ask them to log in and will present them with the appropriate license for completion.

Sincerely yours,

Prof. Wolfgang Sprößig

Dear Author,

The proof of your paper "Global well-posedness for free boundary problem of the Oldroyd-B Model fluid flow", which is scheduled to appear in a future issue of **Mathematical Methods in the Applied Sciences**, has now been uploaded as PDF file.

To access your paper, please copy and paste the following URL into your web browser's window (PLEASE NOTE the URL may be broken – please paste all parts into your browser):

URL: http://wiley-blackwell.spi-global.com/authorproofs/journal/index.php?id=rhVkXOKbxPeOa5z08152015055541NxPnSWPoadoWDOA

Please note that this file should be annotated electronically and returned by email to the address below. Please correct your proof using the electronic annotation tools as instructed in the "Using E-annotation Tools" guidelines that can be found at the end of your proof. Should you encounter any problems please contact the Production Editor at MMAproofs@wiley.com.

If you are unable to electronically annotate the document please see the "Returning Corrections" section below.

Proofread the file for information accuracy against your manuscript copy. Your article production id is noted at the top of this message - please refer to it in all correspondence.

Acrobat Reader & Acrobat Professional

You will only be able to annotate the file using Acrobat Reader 7.0 or above and Acrobat Professional. Acrobat Reader can be downloaded free of charge at the following address: http://www.adobe.com/products/acrobat/readstep2.html
NOTE: Earlier versions of Acrobat Reader do not have annotating capabilities.

Queries

If there are any queries from the Copy Editor, these are listed on the last page of the proof. The text to which the queries refer is indicated on the proof by numbers (e.g. Q1) in the margin. Please ensure these are answered in full.

Corrections

We ask you to check the proof carefully, paying particular attention to the accuracy of equations, tables, illustrations (which may have been redrawn), other numerical matter and references (which have been corrected for style but not checked for accuracy, which remains the responsibility of the author).

To facilitate PDF proofing, low-resolution images may have been used in this file. However, high-resolution images will be used in the final published version. If you have any queries regarding the quality of the artwork, please contact the Production Editor.

As this is a page proof, to which corrections are expensive, please make the fewest possible alterations other than corrections of errors, and wherever a change is essential, please substitute as few words as possible occupying an approximately equal amount of space.

If no corrections are received, the Editors reserve the right to correct the proof themselves.

Returning Corrections

Please keep a copy of the corrected proof for reference in any future correspondence concerning your paper before publication. Please return your corrected proof or advise the Production Editor if you have no corrections (email is sufficient) within 48 hours of receipt. Please return your annotated PDF proof by e-mail to the address below.

If you are unable to correct your proof using electronic annotation, please print out your proof and mark corrections onto the hard copy, using standard and consistent symbols, by following the marking in the proof correction symbols located on the e-proofing site. Please scan and email the corrected proof or a list of your corrections to the Production Editor:

Supporting Information

If you have previously provided Supporting Information with your article, please note it will not be edited or altered from its original format during the Production process. Although a proof of your Supporting Information is not available, it will appear online when your article is published.

Copyright

Your article cannot be published unless we have received your completed license agreement. If you have not already done so, please login into Author Services (http://authorservices.wiley.com) and click on 'My Publications' to use the Wiley Author Licensing Service (WALS). If you have any queries, please contact the Production Editor.

Offprints

Free access to the final PDF offprint of your article will be available via Author Services only. Please therefore sign up for Author Services if you would like to access your article PDF offprint and enjoy the many other benefits the service offers.
Additional paper offprints may be ordered online. Please click on the following link, fill in the necessary details and ensure that you type information in all of the required fields:
http://offprint.cosprinters.com/cos/bw/.

Online Open

OnlineOpen is available to authors of primary research articles who wish to make their article available to non-subscribers on publication, or whose funding agency requires grantees to archive the final version of their article in PubMed Central. With OnlineOpen the author, or a funding agency or institution, pays a fee to ensure that the article is made open access. The OnlineOpen fee is fixed at US$3000 for most journals. Making your article OnlineOpen increases its potential readership and enables you to meet institutional and funder open access mandates where they apply. Authors of OnlineOpen articles may immediately post the final, published PDF of their article on a website, institutional repository or other free public server. Please use the form found here to pay by credit card or request a Pro Forma invoice:
