Avoid using the same words in the title of the paper (green);- We cannot understand the second part of the first paragraph; this is not in english; - The abstract of the paper is too long. Abstract of the paper must be 200 words; - Must not to be more five key words; - Tables must to have the sources; - At references must not have the references for books which are not cited on the paper; - In the paper are not the data for author three; - We think the paper must have some objectives of the study, research questions, and hypothesis; - The paper must have some recommendations.
