Assalaamu'alaikum Wr. Wb.

Dear Chief Editor IJOG

Bpk/Ibu Chief Editor ykh, kami adalah dosen Program Studi Fisika Universitas Jenderal Soedirman yang konsen dalam penelitian bidang Geofisika. Pada hari ini, kami telah mengirimkan file artikel ilmiah ke redaksi IJOG secara online via OJS IJOG. Judul yang kami angkat dalam artikel ini adalah:

Geophysical Survey for Qualitative Interpretation of Subsurface Andesites Rocks Distribution in Kutasari, Purbalingga, Indonesia

Kami berharap semoga artikel ilmiah kami ini dapat dimuat di dalam IJOG. Kami bersedia melakukan perbaikan apabila ada koreksi dari editor atau reviewer, baik mayor maupun minor. Bersama email ini, kami juga lampirkan artikel ilmiah ini. Terimakasih.

GUIDELINES FOR REVIEWERS

General:

- Please comment objectively to provide the author(s) with the means to improve their paper. Feel free to make extended comments on separate sheets.
- If a paper repeats previously published work please point this out to the editor.
- Please explain the reasons for your comments on separated sheets, keying your comments to the numbers 1 – 13.
- Some questions below should be answered on a scale of A to D, where A is the highest rank and D is the lowest.

Manuscript:

9. Are the illustrations/tables A. Useful and all necessary? **yes** **no**

B. Of good quality? **~~yes~~** **no**

Please explain your answers to item 9A – B briefly.

Several figures do not show the geography, the illustration of anomaly does not have comment. what is the significance of information's in the tables?

10. Is the referencing relevant, up to date and accessible? **yes** **no**

Just mentioned theory, and do not touch up the “right and the true reference”

11. Overall quality of the work: **A** **B** **C** **D**

12. Can you suggest any improvements to the paper or any parts that could be shortened or removed? [use separate sheet of paper if necessary to answer this]

The authors, should read the state of art references, and methodology. The writing should focus, e.g. it does not mention andesite rock to strength, and resistivity.

The writing should focus: either development methodology (algorithm for calculation), or the anomalies. Many thing discuss about basic formula but not operational formula or evidence; for discussion the case is also limited.

Hence overall need major revision and reformat properly.

13. Reviewer's decision: ~~A. Minor revision~~

~~B. Moderate revision~~

C. Major revision

~~D. Rejected~~

Dear Chief Editor

Berikut ini kami sampaikan artikel ilmiah yang pernah kami submit di redaksi IJoG. Mengingat para reviewer memberikan revisi mayor (total), maka kami melakukan perbaikan total juga. Semula artikel kami berjudul: "Geophysical Survey for Qualitative Interpretation of Subsurface Andesites Rocks Distribution in Kutasari, Purbalingga, Indonesia", namun sekarang berubah menjadi "Interpretation of Magnetic Anomalies Data in the Andesite Rocks Prospect Area of Kutasari District, Purbalingga Regency, Central Java, Indonesia", karena kontennya berubah sesuai dengan saran dari para reviewer. Namun jika artikel yang telah kami perbaiki ini masih ditemukan beberapa kesalahan, maka kami bersedia kembali untuk memperbaikinya lagi. Semoga proses publikasi artikel ini berjalan lancar.

Terimakasih.

Dear Chief Editor of IJoG

Assalaamu'alaikum Warohmatullaahi Wabarakaatuhu

Alhamdulillah, this morning we were able to complete the second revision of this manuscript. As with the first revision, this second revision is also a total improvement. Therefore, many sentences and contents have been changed. **If the reviewer considers that our manuscript is still far from being eligible for publication on IJoG, then we are willing to be rejected.** But if there is a minor error, then we are willing to fix it again.

We hope to Allah that the Indonesian people will survive the Covid-19 Virus pandemic. Hopefully this disaster ends soon. Aamiin...

Thank you.

Dear Chief Editor IJOG

Assalaamu'alaikum Waromatullahi Wabarokaatuhu

Melalui email ini kami sampaikan permintaan dari Reviewer untuk menandai mana saja yang telah kami revisi. Secara umum revisi telah kami lakukan di seluruh bagian artikel; sehingga agak sulit untuk menandainya, karena sebagian besar telah terhapus atau berubah redaksi dan isinya sesuai arahan dari para reviewer yang kami pahami.

Namun kami merangkumnya dalam **Tabel Response of Author for Reviewer** yang in syaa Allah akan memudahkan reviewer untuk mengkoreksi kembali naskah kami.

Kami berharap revisi yang ketiga ini tidak seberat revisi pertama dan kedua.

Terimakasih.

Dear Chief Editor of IJoG

Assalaamu'alaikum Warohmatullaahi Wabarakaatuhu

Through this email, we ask about the manuscript that we have improved (after the 2nd revision). Our manuscript is entitled **Interpretation of Magnetic Anomalies Data in the Andesite Rocks Prospect Area of Kutasari District, Purbalingga Regency, Central Java, Indonesia**. How did the editor decide on our manuscript (it's been almost a year)? Received with repair or rejected? We ask for complete information. Thank you

Melalui email ini, kami ingin menanyakan kembali artikel yang pernah kami submit ke IJOG pada pertengahan tahun 2019, Artikel kami berjudul: "Interpretation of Magnetic Anomalies Data in the Andesite Rocks Prospect Area of Kutasari District, Purbalingga Regency, Central Java, Indonesia".

Dua bulan lalu, kami mendapat informasi dari IJOG via email ini sbb:

Kami informasikan status untuk makalah Saudara adalah "diterima dengan perbaikan". Makalah masih dalam proses penelaahan oleh Dewan Redaksi dikarenakan masih ada sedikit yang harus diperbaiki dari alur penulisannya.

Jika diijinkan, kami mohon informasinya sudah sejauh manakah perbaikan alur penulisannya. Mungkinkah kami selaku author diijinkan untuk membantu editor memperbaiki alur tulisan kami? Terimakasih...
