Submission Title: microRNA Gene Signature for Predicting Mechanisms in Nasopharyngeal Carcinoma: A Case Study on the Potential Application of Circulating Biomarkers

Dear Dr. Wardana,

Thank you for your submission to "MicroRNA(MicroRNA)". It will be sent to the Editor-in-Chief for his initial provisional approval. Once this is obtained it will be passed on to our Author Support Services department (BASS), for an initial assessment of the manuscript. BASS is a specialized department that helps authors and editors to make sure that the manuscript becomes ready for submission into the peer-review process. The manuscript is being processed on the clear understanding that it contains original work that has neither been published earlier nor has it been simultaneously been submitted for publications elsewhere. In case this is not so, then kindly let us know immediately.

Please note that Bentham Science uses **Cross Check's iThenticate** software to check for similarities between the submitted and already published material to minimize any chances of plagiarism.

Further, as per Bentham Science Ethical Guidelines for Publication, all manuscripts are processed with the understanding that all authors and co-authors have reviewed and accordingly approved the manuscript before final submission to avoid any conflicts of interest later. Our ethical policies can be viewed on the Journal's website.

Articles which are well referenced (100 or more references) may have high chances of acceptance by referees and they are likely to attract a greater number of citations The recommended number of references as per norm (<https://clarivate.com/essays/impact-factor/>) for Review Articles is approximately 100 or more, for Research Articles 75 or more, for Mini Reviews 75 or more & for Letter Articles 50 or more.

In case of any doubt or conflict please contact us.

Your manuscript has been assigned to the following Editor/Manager to whom all correspondence may kindly be addressed:

Name: Alberto Izzotti
Affiliation: University of Genoa, University of Genoa
Country: Italy
Universita degli Studi di Genova, Department of Health Sciences (DISSAL), Genoa, Italy
Country: ITALY
Email: izzotti@unige.it

Few tips to enhance the visibility & citations of your article:

- If you don't already have an ORCID ID please create one at <https://orcid.org/register>
- **Selection of Appropriate Keywords:** Please choose important and relevant keywords that researchers in your field could be searching for so that your paper can appear in many database searches. In biomedical fields, MeSH terms are a good 'common vocabulary' source to draw keywords from: see <https://www.nlm.nih.gov/mesh/meshhome.html>

- The names of the authors should be provided according to the previous citations (or as the authors would want them to be published) along with their institutional affiliations, current addresses, telephone, cell & fax numbers and the email address. Email address must be provided with an asterisk in front of the name of the principal author. The corresponding author(s) should be designated and their complete address, business telephone and fax numbers and e-mail address must be stated to receive correspondence and galley proof. It is also suggested to regularly update your profile in SCOPUS and other databases.
- Authors should avoid the use of non-standard abbreviations and question marks in titles.

For articles submitted from non-English speaking countries, authors should have their articles carefully checked and the language corrected by a native English speaker. Alternatively, authors may want to avail Bentham's English language correction service. For a quote please contact Bentham editorial office. Please note that your article will not be processed till you have completed and returned the attached fee form by replying to this e-mail.

Looking forward to a successful collaboration in the publication of your article.

Sincerely,

Editorial Office
MicroRNA
