suroso suroso:

Thank you for your submission, "Characteristics of Overlap-time Effect in A Carrier based SPWM Three-Phase Common-Emitter CSI" to International Conference on Engineering, Technology and Innovative Researches (ICETIR). With the online conference management system that we are using, you will be able to track its progress through the editorial process by logging in to the conference web site:

Submission URL:

To: suroso suroso <suroso.te@unsoed.ac.id>

Dear suroso suroso,

After a careful review of your submission, we are happy to inform you that your paper "Characteristics of Overlap-time Effect in A Carrier based SPWM Three-Phase Common-Emitter CSI" was accepted with revisions at International Conference on Engineering, Technology and Innovative Researches (ICETIR). Please address the reviewers' comments that are given.

You should upload the revised paper in source document format (MS Word or LaTeX) along with the PDF file by August 7, 2021. Please make sure to submit early to make sure that there is time to fix any problems that might occur.

At least one of the author must register and present the paper at the conference on September 01, 2021. Please consult the conference registration page for registering and payment procedure.

Thank you and looking forward to your participation in this event.

Best regards,

Ari Fadli

Reviewer A:

1. Abstract: Short clear and complete, can attract attention and encourage people to read full paper:

5

2. Background: Clarity of background disclosure problems, differences with previous research, and contributions to be made.:

6

3. Methodology: Research design, procedure and research algorithm:

4

4. Result and analysis: Presentation of results and sharpness of analysis:

5

5. Conclusion: The essence of the findings of the research conducted and its presentation:

5

6. References: Suitability of references given, procedures for writing and referencing the manuscript:

6

7. Paper Organization and Language: Language used, the clarity of the content of the article and the ease of understanding by the reader:

6

8. Contribution: The quality of the paper in terms of ideas, originality, innovation and novelty:

Overall evaluation and recommendation::

Accepted with mayor revision

Reviewer notes: feel free to comment on other aspects of the work as appropriate.:

1. Please correct you're english for this paper, you can use grammarly or anything else to correct it.
2. Add the important value of the result and their relation to the conclusions in the abstract
3. You can use more recent references (5 years earlier).
4. There is no method? You can add you're method in point number 2 and include "Inverter System" in it.
5. Please describe in more detail your results and analysis. Explain the value and comparison on each picture
6. Write a conclusion on this paper by including evidence in the form of values obtained from the results and analysis.
