Dear Dr. Sari:

Manuscript ID NOP-2021-Mar-0371 entitled "The barriers and facilitators of foot care practices in diabetic patients in Indonesia: A qualitative study" by Sari, Yunita; Yusuf, Saldy; Haryanto, Haryanto; Sumeru, Annas; Saryono, Saryono, which you submitted to Nursing Open, has been reviewed. The review comments are included at the bottom of this letter.

The review has indicated the need for revisions to your manuscript. Therefore, I invite you to respond to the reviewer comments and revise your manuscript. Please resubmit your revised manuscript by June 1, 2021.

To revise your manuscript, log into <https://mc.manuscriptcentral.com/nursingopen>, and enter your Author Center, where you will find your manuscript title listed under "Manuscripts with Decisions." Under "Actions," click on "Create a Revision." Your manuscript number has been appended to denote a revision.

You will be unable to make your revisions on the originally submitted version of the manuscript. Instead, revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the track changes mode in MS Word or by using bold or colored text.

Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

When submitting your revised manuscript, you should respond to the reviewer comments in the space provided. You can use this space to document any changes you make to the original manuscript. In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the review.

IMPORTANT: Your original files are available to you when you upload your revised manuscript. Please delete any redundant files before completing the submission.

Because we are trying to facilitate timely publication of manuscripts submitted to Nursing Open, your revised manuscript should be uploaded as soon as possible. If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Please mention the above manuscript ID in all future correspondence or when calling the office for questions. If there are any changes in your street address or e-mail address, please log in to ScholarOne Manuscripts at <https://mc.manuscriptcentral.com/nursingopen> and edit your user information as appropriate.

You can also view the status of your manuscript at any time by checking your Author Center after logging in to <https://mc.manuscriptcentral.com/nursingopen>.

Once again, thank you for submitting your manuscript to Nursing Open and I look forward to receiving your revision.

Sincerely,
Dr. Diana-Lyn Baptiste

Comments to the Author

Thank you for the work presented. The manuscript is well written.

Add the prevalence of diabetic foot ulcer in Indonesia in the introduction.

Add the description in the introduction section why HBM is a suitable model to explain the barriers and facilitators of foot care practice.

Please add the study period in the method section.

Comments to the Author

This is an interesting and well carried out study.

1. The aim, purpose and significance of the work are clearly defined.
2. There are several grammatical/spelling errors. It is recommended to be edited by Professional English editor.
3. The conclusion part is too long. Please make it shorter

Dear Dr. Sari:

It is a pleasure to accept your manuscript entitled "The barriers and facilitators of foot care practices in diabetic patients in Indonesia: A qualitative study" in its current form for publication in Nursing Open.

Please note although the manuscript is accepted the files will now be checked to ensure that everything is ready for publication, and you may be contacted if final versions of files for publication are required.

First Look

Some minor amendments may be requested before the manuscript is sent for production. You will receive a separate email regarding this.

The final version of your article cannot be published until the publisher has received the appropriate signed license agreement. Once your article has been received by Wiley for production the corresponding author will receive an email from Wiley's Author Services system which will ask them to log in and will present them with the appropriate license for completion.

Payment of your Open Access Article Publication Charge (APC):

All articles published in Nursing Open are fully open access: immediately and freely available to read, download and share. Nursing Open charges an article publication charge (APC).

Before we can publish your article, your payment must be completed. The corresponding author for this manuscript will have already received a quote email shortly after original submission with the estimated Article Publication Charge; please let us know if this has not been received. Once your accepted paper is in production, the corresponding author will receive an e-mail inviting them to register with or log in to Wiley Author Services (www.wileyauthors.com) where the publication fee can be paid by credit card, or an invoice or proforma can be requested. The option to pay via credit card and claim reimbursement from your institution may help to avoid delays with payment processing.

Thank you for your fine contribution. I look forward to your continued contributions to the Journal.

Sincerely,
Dr. Diana-Lyn Baptiste
Editor, Nursing Open
