Dear Dr Tjahjo Winanto,

Please find attached the almost final galley proof of your manuscript # 1703 titled "COMMUNITY STRUCTURE OF BENTHIC FORAMINIFERA IN EASTERN WATERS OF SEGARA ANAK LAGOON IN CILACAP" to be published in the August 2022 edition of BIOTROPIA.

Would you be so kind as to carefully read the galley proof and please make necessary minor corrections, if there are still any mistyped words?

Please mark your corrections/inputs with either red fonts or yellow highlights.

The layout will be fixed after the final input from you.

The corrected manuscript should be returned to us no later than 15 August 2022.

We will process it for final printing if we do not hear any comments after the said date.

Thank you for your attention and cooperation.

Best regards,

Sri Ismawati Soerianegara
Editor

Dear Authors,

Thank you very much for your interest in submitting your paper to our BIOTROPIA journal. We do appreciate your willingness to publish your paper in our journal. However, we find that your submission is incomplete due to lack of Declaration Form. We will acknowledge your submission and process your manuscript only after receiving the complete supplementary file. The declaration form should be loaded in OJS.

We look forward to receiving the file as soon as possible. The process will not be started until all requirements are fulfilled. Please also be noted that based on BIOTROPIA termination policy (<http://journal.biotrop.org/index.php/biotropia/about/editorialPolicies#custom-0>)

With regard to speeding up the process, it will be a great help if you could inform us of the name, email address and the institution of three possible external reviewers who are experts/reputable scientists in your manuscript's subject from your country and overseas.

Thank you very much for your kind attention and cooperation.

Best regards,

Woro Kanti
Publication Assistant
