1 Desember 2022 pukul 13.15

Kepada: afik hardanto <hardanto.unsoed@gmail.com>, asna.mustofa@unsoed.ac.id

01 December 2022

Dear Authors,

I am delighted to inform you that your manuscript ID 67 entitled "*Rain Water Harvesting Technology: Drinking water fulfillment and water conservation nearby landfill area*", **is now conditionally accepted** for publication in the Journal of Earth and Environmental Science, IOP Publisher as Proceeding for the 4th International Conference on Sustainable Agriculture and Environment (SAE) by the Conference Organizer. The article will be sent to IOP Publisher for publication. You are requested to fulfill the following requirements so that your paper is ready for publication.

- Format editing as the guidelines (please see the attachment, if you have recently done format editing, then please ignore it)
- Check the proofreading carefully and return with any corrections. After any amendments have been made, the final version will be published.

Though the paper has been scientifically accepted, we make Changes Requested in the Morresseir for you to reupload files. TWO files need to be uploaded: 1. Paper with Full name of authors and affiliation; And 2. Anonymized Paper Without authors and affiliation,

Your final version of the paper should be resubmitted by **8th December 2022** through the Morressier platform

Thank you for your support and we look forward to seeing more of your work in the future,

Yours sincerely,

Associate Prof. Nguyen Tat Toan

Editor-in-Chief, SAE2022 IOP-EES Proceeding

Urgent: Revision request from IOP Publisher regarding your paper submitted to SAE2022

2 pesan

abs sae2022 <abs.sae2022@hcmuaf.edu.vn>

15 Februari 2023 pukul 15.33

Kepada: afik hardanto <hardanto.unsoed@gmail.com>, asna.mustofa@unsoed.ac.id

Dear authors,

IOP Publisher has reviewed your paper entitled "**Rain Water Harvesting Technology: Drinking water fulfillment and water conservation nearby landfill area**" by A Hardanto, A Mustofa and Ardiansyah

Details of the information that needs to be revised and explained are listed as follows:

- There are grammar issue on page 1 (the phrase 'water as coliform contamination' should use the word 'with' rather than 'as').
- The phrase "rare studies" sounds grammatically odd and would sound better if it was replaced with for example "few studies".
- It is unclear what the word 'as!' underneath figure 1 on page 2 refers to.
- There is a typo in the caption of figure 2 ('paddy's field'). It is also unclear what the phrase '(e) may the well water' refers to just after this.
- There is a minor formatting issue on page 4 with some text at the bottom being different sizes.
- There is poor grammar/a confusing caption for figure 5.
- Typo 'paddy's field' again on page 8, with another typo just after this ('demonstrate water- holding or water-holding').

Please carefully revise your paper by **20 February 2023** and respond to each point of concern **in this email** with 2 attached files:

1. WORD file of your revised paper, **with highlights** demonstrating your revision
2. PDF file with proper format ready for publication (**NO HIGHLIGHTS**)

This is an important request from IOP Publisher, please carefully address all concerns raised,

Thank you very much,

Looking forward to receiving your response and revised files soon,

Best regards,

Dr. Huynh Tien Dat,
Associate Editor, IOP Proceeding of SAE2022

Kepada: abs sae2022 <abs.sae2022@hcmuaf.edu.vn>

15 Februari 2023 pukul 17.35

Dear Dr. Huynh Tien Dat
Associate Editor of IOP Proceeding of SAE 2022

We thank you for the feedback from the IOP publisher. Please, enclosed two documents (i.e Revised paper according to the IOP publisher comment in word format and the final PDF file for publication).

Based on the IOP Publisher comment, please find our answer after the question (blue color):

Details of the information that needs to be revised and explained are listed as follows:

- There are grammar issue on page 1 (the phrase 'water as coliform contamination' should use the word 'with' rather than 'as').
the word already has been changed to publisher suggestion
- The phrase "rare studies" sounds grammatically odd and would sound better if it was replaced with for example "few studies".
the word already has been changed to publisher suggestion
- It is unclear what the word 'asl' underneath figure 1 on page 2 refers to.
"asl" is an abbreviation of "above sea level" and it has been changed in the manuscript.
- There is a typo in the caption of figure 2 ('paddy's field'). It is also unclear what the phrase '(e) may the well water' refers to just after this.
the "paddy's field" already has been corrected to "paddy field"
The phrase "may the well water" has already been adjusted with "and the well water quality" for a clear sentence.
- There is a minor formatting issue on page 4 with some text at the bottom being different sizes.
The different text sizes have already been adjusted
- There is poor grammar/a confusing caption for figure 5.
The Fifth Figure's caption has already been adjusted from "The acidity of water samples" to "The water pH"
- Typo 'paddy's field' again on page 8, with another typo just after this ('demonstrate water- holding or water-holding').
"paddy's field" has been adjusted
The redundant phrase of "water-holding" has been corrected

Please, let us know if any corrections are needed. We do thank you for the feedback and cooperation.

Best regards,
Afik hardanto
