Overall evaluation:	2: (accept) This a very good paper with some points noted below. 1. There are several grammatical mistakes that may mislead, at less, make readers to comprehend the paper. 2. CHECK a a sentence "The point of mention of hate speech in the human rights framework lies in TWO rights discourses". But you mention three points. 3. Note. Technology as a medium is neutral. But it is mistakenly used by netizens in social-legal practices. 4. In conclusion, may the paper reflect specifically in Indonesian context?
